

Minutes of Meeting of April 1, 2021

Due to problems in opening the meeting via ZOOM on the part of temporary host John KA2F the meeting did not start until about 7:45 under the guidance of Denis K2NPT.

There were 19 members present.

The salute to the flag, member introductions, health and welfare, and new member applications were waved so that the remaining time could be devoted to the Presentation by Joe Wilkes WA2SFF on the topic of HF and VHF radio waves propagation.
